DETAILED ACTION

I. The current office-action is in response to the application filed on 1/30/06.

Accordingly, Claims 1-36, 39-53 are cancelled and Claims 37-38, 54-73 are pending for further examination as follows:

Double Patenting

II. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

III. Claims 37-38, 54-73 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-59 of U. S. Patent No. 6959183. Although the conflicting claims are not identical, they are not patentably distinct from each other because all of the claimed limitations of the present U.S. Application No. 09/772066 for example, see Claim 37 is explained in following table, is transparently found in claims 1-2 of the U. S. Patent No. 6959183 with obvious wording variations.

Determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

2. The method of claim 1, further comprising determining the value of the flat rate without relation to minutes of use by the user of the wireless communications services during the period of time.

Response to Argument

IV. Applicant's arguments with respect to claims 37-38, 54-73 has been considered but is most in view of the new ground(s) of rejection.

Conclusion

V. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, THIS ACTION IS MADE FINAL. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a). A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
